Professional Summary

BCA graduate and React JS developer with a 6-month certified internship at Spectrics Solutions and 3 projects built with React and Tailwind CSS. I build responsive, component-based interfaces, manage state with hooks and connect them to REST APIs. Seeking a Frontend Developer role where I can ship polished, real-world products.

Technical Skills

- **Languages:** JavaScript (ES6+), HTML5, CSS3
- **Frameworks and Libraries:** React JS, Tailwind CSS, React Router
- **Concepts:** Reusable components, state and props management, React Hooks, REST API integration, responsive design, interactive web applications
- **Tools:** Git, GitHub, VS Code, npm

Work Experience

React JS Intern — Spectrics Solutions Pvt. Ltd., Ahmedabad *2 Apr 2026 – 16 Oct 2026*

- Built responsive React JS interfaces and interactive web applications using JavaScript, HTML and CSS
- Developed reusable components and managed state and props to keep code clean and scalable
- Integrated REST APIs to fetch and display dynamic data
- Completed all assigned tasks and learning activities within the given deadlines
- Earned an official internship completion certificate (16 Oct 2026) from the Technical Head, recognising sincerity, dedication and strong performance

Projects

Dream Travel — Travel Booking Website | React, Tailwind CSS, React Router | [GitHub link]

- Built a multi-page travel website with routing and a complete booking flow
- Designed a modern, responsive UI with frameless image layouts and 3D animation effects
- Structured the app into reusable components for destinations, cards and booking steps

Patchwork — Offline-First Field Service App | React, Tailwind CSS | [GitHub link] *(in progress)*

- Frontend-only field service app for electricians, plumbers and maintenance teams: job scheduling, customer history, checklists, site photos, material usage and invoices
- Offline-first design: job updates work without internet and sync automatically when it returns
- Conflict-resolution screen when two technicians edit the same job, so no data is silently lost

Bite Rush — Food Delivery Website | React JS, Tailwind CSS | [GitHub link]

- Built a responsive food delivery website where users browse food items, add them to a cart and place orders
- Created reusable components and managed cart and order state with React hooks
- Designed a clean, mobile-first UI that works smoothly on phone, tablet and desktop

Education

Bachelor of Computer Applications (BCA) — [Saurashtra university/ SV college Surendranagar], [Surendranagar] *[2022] – [2025]* | [7.69/10 / 71.75%, First Destination]

Language

Hindi, English, Gujarati.
